Steps to protect the liver from further damage are described below.

Available data shows that these programs are cost effective, do not increase drug use and both reduce transmission of disease and encourage people to seek treatment.

And so the director arranged a custom course for me, one-on-one with a tutor, two hours a day for ten days (plus the textbooks and the cds).

Undercover agents are buying the stuff in San Diego for about $3,500 a pound—that's a third the cost of a pound of cocaine—and prices have been decreasing since 2008, Hill said.

The absence of prosecutions, victims' relatives and witnesses say they fear testifying, largely...
