steady, small increases in milage is the only way to prevent it once it starts happening

at least the dolphins have the sense not to slaughter themselves.

any reccomendation would be helpful or how can i lose that last 3 fat? been trying for a month and dont see any results and ofcourse dont want to lose muscles.
since the internet is not limited by geography, crimes committed in cyberspace can easily achieve global dimensions

some of the research suggests that consuming saturated fats instead of carbohydrates can reduce the number of small, dense ldld particles
